

Brief Description of Drawings

- 1) This diagram is showing the back view that mounts onto the exterior wall. It shows the overall size from top to bottom and from side to side. The outside diameter of the hole and the width and depth of the recess for the galvanized pipe to fit into. The dotted lines show the mounting flang and were the front housing protrudes.
- 2) This is a side view showing the overall size from front to back and top to bottom. It also shows the placement of the filter and pull tab to release the filter.
- 3) This is the front view showing how the filter is seated and the pull tab.
- 4) This is the same as figure 3 but with the side view.
- 5) This shows the solid back with the outside diameter that mounts against the exterior wall of the house.
- 6) This shows the side view thickness of the filter and the size of pull tab, also the outside diagram of the filter seat.
